Top: The new **MOD+ Collection** from **GRAFF** comes in multiple finishes, including the of-the-moment architectural white shown above. The handles feature Tuscan marble in three different colors on brass bases with tactile knurling. Middle: **GRAFF's Harley collection** is inspired by the classic American motorcycle, and comes in finishes such as the elegant Onyx, shown here. Left: In a master bath by **Hilary Bailes**, a freestanding tub by **Victoria + Albert (House of Rohl Studio)** looks out on a lush garden. The small space is artfully designed, with tile by **Porcelanosa** and glossy white finishes on cabinets and surfaces. Brass fixtures by **House of Rohl Studio** add a touch of old world elegance.
